

WANT TO HELP KEEP EUROBODALLA THE NATURE COAST?

JOIN THE COASTWATCHERS ASSOCIATION

Here are just a few of the things that
Coastwatchers are currently doing --

- ❖ Lobbying for **more environmentally sustainable coastal development**
- ❖ Trying to **prevent excessive clearing for subdivisions** - to give buyers the opportunity to build with nature instead of destroying it.
(Did you know endangered animals such as Yellow Bellied Gliders still share some of our settlements?)
- ❖ Working to **change forest management practices** - so that only the least sensitive coupes are intensively logged, and wood-chipping is phased out
- ❖ Endeavouring to **have jetskis banned** from the Shire, or at have them tightly restricted to areas that do not conflict with other users and that result in minimum noise pollution
- ❖ Closely **monitoring Council meetings**
- ❖ **commenting on draft proposals, planning controls** and the like that affect our area
