# NATURE COAST OR DEVELOPERS COAST ?

Come along to a public meeting for information on how the Eurobodalla Council's proposed Rural Land Strategy will open up extensive coastal development here in our local area and remove very important environmental protections Throughout our shire.

The RLS is currently before the State Government Planning Minister. If you didn't know about this and would like to know more - come along to this important meeting.

If you care about the nature in the Nature Coast you still have a chance to tell the Minister and your local MP, Andrew Constance, before a decision is made.
